
AKAGERA COFFEE PROJECT LTD PROFILE

AKAGERA

C O F F E E

ABOUT US:

Akagera Coffee project Ltd (ACP) is a Social Private Enterprise located at akagera road, at Kayonza District in Eastern Province of Rwanda. The Company has started by building Akagera Coffee Washing Station in 2016 in partnership with Mr. Egide Murindababisha and Rusave Farmer's Coffee Cooperative (RFCC) and started to be fully operated as Akagera Coffee Project Ltd in 2017. ACP is on a small scale but has tremendously impacted to the local communities through youth and women employments, contribution to farmer's income and community involvement through social and economic project initiated integrated farming such as teaching agri-business, tailoring, weaving, pond fish farming and pre - school for our farmer's children.

After set up, ACP is current manage two Coffee Washing Stations located at Kayonza and Nyagatare Districts in Eastern Province where we work with 1,150 farmers with aim of promoting coffee production and increase socioeconomic of coffee farmers within our zones and across the country. We are planning to have another one at Nyamasheke District.

Our Vision:

Being committed to invest enough in coffee production, ACP is a coffee tourism and research center (like On Farm Treatment Trials and Biochar) for a wealthy world by building capacity among farmers so that they can promote coffee growing as a profitable business. Constantly, ACP is also an effective, practical and fun way to make a positive impact on people, widening our circle of impact broadly along the way.

Mission of:

- Blanding a Rwanda as regional coffee with the principles of quality and traceability;
- Promoting farmers practice to move on agribusiness level;

And with the Value:

Passionate with quality of coffee and farmer of quality.

WHY CHOOSE US:

- Because Akagera Coffee is a customer satisfaction centered.
- Because our success is to have an everlasting experience among our customers and farmers.
- Because we track impact among our farmers and share the success stories on our platforms.
- And because we invest 30% of our net income back to our farmers.
